

Data Analysis Discussion

For each graph, think about what the data is showing you (your observations). Based on these observations, think about what you can imply about what those observations mean (interpretations).

I. Type of Graph: _____

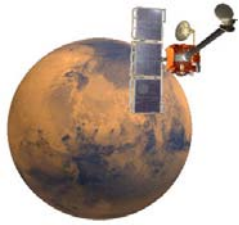

Graph of _____ versus _____

Observations	Interpretations

II. Type of Graph: _____

Graph of _____ versus _____

Observations	Interpretations

Data Analysis Discussion cont'd

III. Type of Graph: _____

Graph of _____ versus _____

Observations	Interpretations

IV. Type of Graph: _____

Graph of _____ versus _____

Observations	Interpretations

Data Analysis Discussion cont'd

V. Type of Graph: _____

Graph of _____ versus _____

Observations	Interpretations

VI. Type of Graph: _____

Graph of _____ versus _____

Observations	Interpretations
